

Developmental Medicine & Child Neurology

Volume 31 1989

INDEX

Authors and subjects of articles in the body of the journal are indexed together. Abstracts are included in the general index and listed under both subjects and authors, with 'abstr.' at the end of the title. Letters to the Editor are indicated by the symbol '(L)'. Co-authors are cross-referenced to first author.

KEY TO ISSUES AND PAGES

Issue	Pages	Issue	Pages
No. 1	1-142	No. 4	425-566
No. 2	143-284	No. 5	567-705
No. 3	285-424	No. 6	707-844

- ABRAMS, J. P. *See* CAMP-BRUNO, J. A., 309
 ACCARDO, P. *See* MORROW, J., 690

ANNOTATIONS

- Cerebral palsy and the bladder, 687
 Cocaine and its effects on the newborn, 255
 Feeding disorders in children with multiple handicaps, 404
 Meningitis, long-term effects of, 398
 Migraine, epilepsy, post-traumatic syndrome and spreading depression, 682
 Moyamoya disease, childhood, 103
 Muscle growth related to muscle contracture in cerebral palsy, mechanisms of, 543
 Neurological aspects of failure to thrive, 821
 Preterm birth: to correct or not to correct, 816
 Sex education and the severely mentally retarded child, 98
 Sexual dimorphism in the human brain: dispelling the myths, 257
 Thyroid disturbances in cytogenetic diseases, 800
 Visual acuity, development and study of, 547
- ARCHER, L. N. J. *See* LEVENE, M. I., 427
 ARENS, L. J. and MOLTENO, C. D.: A comparative study of postnatally-acquired palsy in Cape Town, 246
 ARMSTRONG, R. W. *See* KING, S. M., 237
 ASHURST, H. *See* JOHNSON, A., 457, 828
 Asperger's syndrome
 and autism: comparison of early history and outcome, 709
 in 23 Swedish children, 520
 Asphyxia
 birth, selective brainstem injury in (abstr.), 141
 severe, and abnormal cerebral blood-flow velocity, 427
 correlation with outcome, 329

- post-asphyxial encephalopathy in a preterm infant, 395
- total, brain energy metabolism in: an *in vivo* phosphorus nuclear magnetic resonance spectroscopic study (abstr.), 280
- Assessment, full, of the child, 1
- Ataxia-telangiectasia gene, localization to chromosome 11q 22-23 (abstr.), 281
- Autism
- and Asperger's syndrome: comparison of early history and outcome, 709
 - and hyperkinesia, comparative effects of fenfluramine in, in children (abstr.), 704
 - early-onset, in twins, chromosome findings in (abstr.), 840
 - fenfluramine or combined vitamin B₆ and magnesium, electrophysiological effects on children with, 721
 - infantile, in five children with Leber's congenital amaurosis, 598

children with
hands: stereognosis and two-point discrimination testing, comparison, 371
linear growth, assessment, 206
muscle contracture, control of, with reduction of spasticity, 471
parents of, health literature for, 489
differentiation from idiopathic toe-walking (abstr.), 281
early identification of, efficacy of popliteal angle measurement, 457
hips, early management of, 108
inching forward in, 425
muscle growth related to muscle contracture, mechanisms of, 543
neonatal intensive care survivors with, early prognosis for ambulation, 766
physical therapy, effects, 266(L)
popliteal angle measurement, efficacy in early identification of, 828(L)
postnatally-acquired, 246

Cerebrospinal fluid
findings, in follow-up of children with optic neuritis (abstr.), 14
nucleotide metabolites following non-convulsive status epilepticus, 168
nucleotide metabolites following short febrile convulsions, 161

CERVELLATI, S. See MERLINI, L., 501

CHARNEY, E. B. See SPENDER, Q. W., 206

Childhood
chronic physical illness in: psychological and social effects in adolescence and adult life, 746
moyamoya disease in, 103

Children
academic achievement 10 to 12 years after *Haemophilus influenzae* meningitis (abstr.), 139
Asperger syndrome in 23 Swedish children, 520
attitudes to disability, 237
convulsions and hypotonic-hyporesponsive episodes following diphtheria-tetanus-pertussis immunisation: follow-up (abstr.), 283
encephalopathy with calcification of basal ganglia: Fahr's syndrome (abstr.), 841
enuretic, developmental history and neurological findings, 728
feeding disorders with multiple handicap: videofluoroscopic investigation, 303
fenfluramine, comparative effects in children with autistic syndrome and hyperkinetic children (abstr.), 704
intellectual ability after perinatal cytomegalovirus infection, 782
lead exposure in, and abilities at age four (abstr.), 564
malnourished, reversible neuromuscular syndrome in, 797
mentally retarded, severely, sex education and, 98
mevalonate kinase deficiency in cerebellar ataxia, hypotonia and mevalonic aciduria (abstr.), 701
neuropsychological performance, relationship with lead exposure indicators, 181
preschool, low vision aids for, 509
school-age
behaviour and achievement at age 13, 3
neurodevelopmental profiles at age 13, 14
Wernicke's encephalopathy: complication of poor nutrition (abstr.), 564
with autistic behaviour: electrophysiological effects of fenfluramine or combined vitamin B₆ and magnesium, 721
with cerebral palsy. See Cerebral palsy, children with
with Down syndrome, effects of multivitamins and minerals, 532
with Leber's congenital amaurosis, infantile autism in, 598
with motor deficit of central origin: form for recording clinical findings, 119(L); 120(L)
with multiple handicaps, feeding disorders in, 404
with neurogenic bladder, clean intermittent catheterization for (abstr.), 562
with optic neuritis, follow-up: magnetic resonance imaging, evoked responses and CSF (abstr.), 141
with phenylketonuria treated early: long-term development of intelligence and EEG (abstr.), 140
with preschool minor developmental disorders, 3, 14
with reading, writing and spelling difficulties:

neurophysiological study, 569
with Refsum's disease, 92

CHIRON, C. See PALADIN, F., 377

Chromosomes
Angelman and Prader-Willi syndromes, common chromosome 15 deletion but differing parental origin of the deletion (abstr.), 841
genetic markers on chromosome 20, linking with benign familial neonatal convulsions (abstr.), 840
heterozygosity for the short arm of chromosome 1 in human neuroblastomas, loss of: correlation with N-myc amplification (abstr.), 704
in twins with early-onset autistic disorder (abstr.), 840
trisomies 13 and 18, intrauterine survival of, and placental mosaicism (abstr.), 422

Cocaine and its effects on the newborn, 255
